Subject: Fw: Urgent: 06-07-2012 Science Committee Letter to Administrator Lisa Jackson; Heads-Up! [House Sci Tech Comm - Harris Letter - 07June2012.pdf](#)

ORD has been tasked with responding to questions from the House Committee on Science, Space, and Technology concerning the Agency's hydraulic fracturing study and activities related to the Pavillion ground water investigation. I have attached the letter below. This email is a heads-up because, as Regional contacts or your involvement in these activities, I requested you have an opportunity to review and comment on the draft responses. I also wanted to give you a heads-up because a response is due to the House Committee on Science, Space, and Technology by this Thursday (21 June 2012). Any review/comment will require a quick turnaround. You will likely receive an email with the draft comments tomorrow from Joanne Rodman or Dayna Gibbons. Please respond back to the sender if you have any comments.

I will let you know if I hear anything else on this subject.
